# ADVANCING CONNECTED CARE™ WITH VITAL SIGNS CONNECTIVITY

## Hillrom and Cerner

Help improve staff productivity, patient outcomes and risk reduction with accurate, automatic vitals sent directly to your EMR. See how a connected solution can help you improve clinical workflows and reduce errors.

## Unconnected Workflow

1

Take patient's vital signs

2

Document vitals on paper

3

Find a workstation

4

Open the patient's chart on a workstation and manually type vital signs into the EMR

## Connected Workflow

1

Scan clinician ID

2

Scan patient ID

3

Take patient's vital signs

4

Tap "Save" to automatically send vitals data to the EMR

## Connectivity Counts

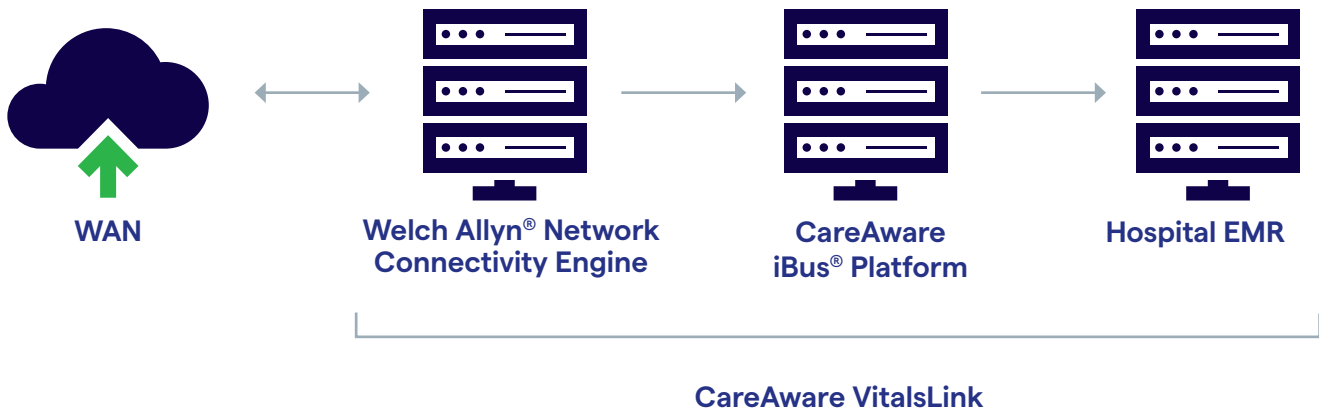

Help save time and improve data accuracy by streamlining your clinical workflows.

- Reduce time previously spent manually entering data into the EMR
- Improve accuracy by minimizing manual processes and associated errors
- Work more efficiently by freeing up your time for other patient priorities

### Connex<sup>®</sup> Spot<sup>®</sup> Monitor (Wired or Wireless)

### Customer Data Center (On or Offsite)
